M.A ENGLISH Assignment Test 3rd Semester 2018 CBCS DDCE

Paper - (Basics of written Communication)

Answer any two.

15 × 2 = 30 Word Limit – 1000

Time : 1 hrs.

1. Write a note on the outline form on the following passage:

About 2500 million years ago the earth on which we live was a ball of gas which on cooling, grew smaller and became liquid. The liquid continued to cool , giving of some of its heat by radiation and when liquid grew colder they solidified .The crust of the earth is the solid matter resulting from this cooling , but probably inside the earth there is still a mass of molten material which has not cooled as much as the outer crust.

The crust on which we live and from which we obtain almost everything that we have is not quite rigid. Volcanoes such as Etna and Stromboli in the Italian island remind us from time to time of the force and heat below the ground. Various places on the earth are subject to earthquakes, the country that has suffered most all these is Japan. The study of the earthquakes, the science of seismology, has shown that the origin of many of them is under the bottom of the sea and near the coast of a continent or large island. In an earthquake, the surface of the land may move suddenly in any direction, bringing houses down, changing straight railway track into a useless zigzag, altering the courses of rivers, changing the shapes of hills and sometimes causing an immense sea wave to rush on the nearest sea shore and add to the destruction. This tidal wave, as it is called, is wrongly named because it has nothing to do with the tide.

2. Discuss the linking devices with examples.
3. As the Convener of a Committee to study the feasibility of opening a new branch of commercial bank at a rural location, write a report with recommendation to be submitted to the Head Office.
4. Write a resume for the job of an Advertising Manager of a Food processing company and add a covering letter.
5. Discuss the do's and don'ts of complaint letter.
6. How would you develop your writing skills?
